

Sea and other views

Our farmhouse and olive groves are south easterly facing. We have spectacular sunrises. Winter sunrises begin in the direction of Sant'Elpidio a Mare and in the summer rise over Mt Conero and as summer closes the sunrises gradually return rising over blue flag beaches, Loreto, Macerata and finally Sant'Elpidio a Mare. We also have fantastic views of the moon rising above Mt Conero and often there is a red moon over Macerata. The skies are clear without any light pollution so stars are easily visible.

Sunrises seen from our farmhouse

Sea views seen from our farmhouse

The coastline which is about 33kms drive and here there are blue flag beaches, hidden coves and some beaches are only accessible by boat. There are lots of small restaurants serving fresh fish caught from the azure Adriatic Sea.
